What is a 60 kW PDP?

The PDP-60KW is a 60 kW power distribution panel. It is used to provide power to equipment requiring 120/208 VAC electrical power. The circuit breakers protect the cables from excessive current flow.

How many receptacles does the PDP60 have?

The PDP60 has four (4) receptacles at 60-amp, 120/208 VAC, 3-phase. The output connector and receptacles are protected by appropriately sized circuit breakers.

What is a PDP that provides 120/208 volt power?

PD Power Systems' PDP-60KW provides 120/208 VAC 3-phase and 120 VAC 1-phase power. These PDPs are used to supply power to equipment requiring 120/208 VAC electrical power.

What is a distribution cabinet?

The distribution cabinets are an essential part of the electrical distribution infrastructure. For instance, for the energy networks in buildings, for street lighting and charging systems for electric cars. The distribution system in our cabinets is based on a well thought-out, compact and modular design.

Tripp Lite's SUDC208V84P60M Power Distribution Center supports 60kVA 3 phase UPS power distribution in critical datacenter equipment racks. ...

Find Power Distribution Unit in Netherlands. Buy Power Distribution Unit at the best price from Norden Communication, one of the leading manufacturers and suppliers of Power Distribution ...

Tripp Lite's SUDC208V84P60M Power Distribution Center supports 60kVA 3 phase UPS power distribution in critical datacenter equipment racks. Integrated 3 breaker 208V service bypass ...
