How will Italvolt support Italy's Green industrialisation ambitions?

Italvolt intends to honour Italy's important industrial legacy by supporting the country's green industrialisation ambitions, and by delivering battery cells which will help drive decarbonisation across a variety of industries. Italvolt's 45GWh battery plant will be the Italy's largest, independent, battery cell factory.

What is the future of energy storage in Italy?

MP: The future of energy storage in Italy is bright. With investments in technology, regulatory support, and declining costs, BESS will become a key pillar of Italy's transition to a sustainable energy future. Telis Energy is proud to play a role in this journey by originating, developing, and building high-quality BESS projects.

What is Italy's largest battery cell factory?

Italvolt's 45GWh battery plant will be the Italy's largest, independent, battery cell factory. The battery cell factory will focus on creating new opportunities for re-skilling and upskilling workers from Italy's automotive industry.

Are lithium-ion batteries still used in BESS?

Although the lithium-ion batteries that are used in BESS today are a mature and commercial type of technology, it's important to equip ourselves with tools that optimize plant operation.

Learn how Enel transforms renewable energy in Italy with advanced BESS storage systems, providing stability and flexibility.

Discover GSL ENERGY's Italy battery energy storage projects, from wall-mounted home solar batteries to large-scale commercial & industrial ESS. CEI-certified solutions, long ...

The lithium-ion battery charging cabinet is built using all-welded, 18-gauge (1mm) steel and includes a double
