How much does a Rb80 battery weigh?

The RB80 is ideal for applications where you need a lot of power for a longer period of time. At only 25 pounds, this lithium iron phosphate battery is a safer, more lightweight alternative to lead-acid in a variety of deep cycle applications including marine, RV and solar, among others.

How much does a lithium iron phosphate battery weigh?

At only 25 pounds, this lithium iron phosphate battery is a safer, more lightweight alternative to lead-acid in a variety of deep cycle applications including marine, RV and solar, among others. Search our global network of RELiON dealers for sales or service

How long do lithium batteries last?

Lithium batteries provide 100% of their rated capacity, regardless of the rate of discharge. And, you can use it all and still get substantially longer cycle life. RELiON lithium batteries provide up to 10 times longer life than lead-acid batteries, and they still provide 80% of the rated capacity after 3,500 cycles.

How long does it take to charge lithium iron phosphate batteries?

Lithium iron phosphate batteries can be charged in as fast as 1 hour. We recommend using a rate that charges our batteries in 2-5 hours. Please refer to the data sheet for your particular model, to find the recommended charge rates. All of our data sheets are available on our website within the product section.

With the Eastside Energy + lithium ion battery 20 kwh, experience the forefront of cutting-edge lithium chemistry. This battery's capability to ...

Most customers choose this 12v 80ah lithium-ion battery power backup for home. The battery weighs 20 pounds, less than half the lead-acid equivalent, making it ideal for deep-cycle ...
