What are the safety storage cabinets for lithium-ion batteries?

Safety storage cabinets for passive or active storage of lithium-ion batteries according to EN 14470-1 and EN 1363-1 with a fire resistance of 90 minutes (type 90) -- fire protection from the outside-in and from the inside-out.

What is a cellblock battery storage cabinet?

CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them.

What are omnipower stackable battery cabinets?

The OmniPower stackable battery cabinets are strong, locally-manufactured powder-coated steel units that ensure your battery bank is safely enclosed while adding great aesthetic appeal to your installation. Optional extras include professional safety fuse kits and castor wheels.

How do I choose a battery storage cabinet?

No matter what safety level you choose, all cabinets offer these key safety features: If you only wish to store batteries in the cabinet, choose the STORE version. If you intend to charge (active storage) batteries directly in the cabinet, then choose the CHARGE version.
