-----

Developer NGEN Smart Grid Systems has completed a 10.3MW/20.6MWh standalone battery storage project in Austria, the ...

The project adopts electrochemical energy storage lithium iron phosphate cells, equipped with a 150MW/300MWh energy storage system. It is connected to the 220kV side of the Loki ...

The recent commissioning of the Arnoldstein Gailitz Battery Energy Storage System (BESS) by the NGEN Group represents a pivotal advancement in Austria's journey ...

Implementation of Upper Austria's most important infrastructure project begins. The project is a prerequisite for decarbonizing steel production and the basis for significantly ...

The facility in F&#252;rstenfeld in Styria has a capacity of 24 megawatt hours (MWh) with an output of twelve megawatts (MW) and is equipped with six "Megapack 2XL" systems ...

From pv magazine Germany Austria's Climate and Energy Fund has launched a EUR17.9 million tender program for medium-sized ...

Developer NGEN Smart Grid Systems has completed a 10.3MW/20.6MWh standalone battery storage project in Austria, the largest in the country, it claimed. The ...

If you're reading this, chances are you're either an energy engineer chasing the latest grid innovations, a project manager evaluating storage systems, or just a tech enthusiast ...

Repono has completed the acquisition of a 202 MW / 404 MWh standalone battery energy storage project in Arges County, Romania. The Sweden-based operator said the deal ...

The facility in F&#252;rstenfeld in Styria has a capacity of 24 megawatt hours (MWh) with an output of twelve megawatts (MW) and is ...

NGEN Group inaugurated its battery storage system in Austria's Carinthia province after expanding it. At 21.9 MW in operating power and 43.8 MWh in capacity, it is again the ...

The storage facility featuring six Megapack 2XL systems from Tesla was built over a seven-month period in the vicinity of a wood gas ...

RAG Austria AG is Austria's largest energy storage company, and one of Europe's leading gas storage facility operators.

As Europe accelerates its transition to renewable energy, Austria has emerged as a leader with its ambitious 220kV energy storage initiative. Designed to stabilize the national grid and support ...

A high-performance connection capable of handling the flows from the renewable energy sources in Germany and Northern Europe to Austrian load centres and pumped storage power plants ...

Slovenia-based NGEN put Austria's largest battery energy storage system into operation. It installed it in record time - just seven ...
