What is a lithium-ion battery storage cabinet?

DENIOS presents its Energy Storage Cabinet specifically crafted for Lithium-Ion batteries, ensuring secure containment and charging. These meticulously designed lithium-ion battery storage containers guarantee comprehensive safeguarding, including 90-minute fire resistance against external sources.

What are lithium ion battery cabinet solutions?

To mitigate these risks, industries and institutions are turning to advanced lithium ion battery cabinet solutions. These cabinets are specially designed to safeguard against internal fires, thermal runaway, and mechanical damage. Standard storage methods are often inadequate for lithium-ion technology.

Which lithium ion battery cabinet should I Choose?

For safe storage (and charging) of your batteries you choose the Salvus lithium ion L2. This battery cabinet is equipped with an automatic extinguishing system, which means that any fire will be extinguished in the cabinet itself. Without causing further damage. In our webshop you will also find the Salvus lithium-ion L3 battery cabinet.

Which lithium-ion charging cabinets should I Choose?

Asecos provides two reliable lithium-ion charging cabinets to fit your specific needs. Both options offer exceptional fire protection and safety features, ensuring secure storage and battery charging. This guide will help you choose the right cabinet size for your space and capacity requirements.
