Which building will house the Bess project?

A render of the building that would house the BESS project. Image: Flatiron Energy / System operator ISO New England has given the go-ahead for a 300MW/1,200MWh indoor BESS located in Boston, Massachusetts under development by developer and IPP Flatiron Energy.

How much energy storage does Massachusetts have?

The act requires all electric distribution companies (EDCs) to report annually on energy storage deployment within their territories no later than February 15 each year. It was reported last year that Massachusetts had a cumulative storage capacity of 569MWh, with an additional 8,806 MWh in the development pipeline.

Is VHB leading a transmission-scale energy storage project?

VHB is leading permitting for the transmission-scale energy storage project. Flatiron Energy recently filed a Project Notification Form for "Project Lite Brite," a 200-megawatt battery energy storage system (BESS) facility located in Brighton, Massachusetts, initiating Article 80 review with the City of Boston.

Is ISO New England planning a 300MW Bess in Boston?

System operator ISO New England has given the go-ahead for a 300MW/1,200MWh indoor BESS located in Boston, Massachusetts under development by developer and IPP Flatiron Energy. ISO New England approved a proposed plan application associated with the project in the form of a letter published on the system operator's website on 6 January, 2025.

It requires investor-owned utilities to secure 5,000 megawatts (MW) of storage by 2030. This includes 3,500 MW of mid-duration, 750 MW of long-duration, and another 750 MW ...

ISO New England has given the thumbs up to a project proposed by Flatiron Energy and envisaging the installation of a 300 ...

ISO New England has given the thumbs up to a project proposed by Flatiron Energy and envisaging the installation of a 300-MW/1,200-MWh battery energy storage ...

project in Everett, Massachusetts. The Trimount Energy Storage Facility (Trimount) will provide up to 700 MW of critical energy and resiliency to support the electric ...

Flatiron Energy has received approval from ISO New England for a 300-MW/1,200-MWh battery energy storage system in Boston, Massachusetts. The authorization includes the ...

Jupiter Power is proposing to build and operate the Streamfield Energy Storage Facility, a 200-megawatt battery energy ...

Flatiron Energy recently filed a Project Notification Form for "Project Lite Brite," a 200-megawatt battery energy storage system ...

Environmental groups have praised the idea of turning the polluted land, formerly an ExxonMobil oil tank farm, into one of the largest ...

We develop, own, and operate utility-scale energy storage projects that strengthen the electric grid and provide clean capacity where it is needed most.

About Our Project Moraga Energy Storage is a proposed 180 MW battery energy storage facility located at 358 Coldbrook Road in Oakham, MA, ...

Plus Power has closed financing for a 150MW/300MWh standalone battery energy storage system (BESS) project in ...

Flatiron Energy recently filed a Project Notification Form for "Project Lite Brite," a 200-megawatt battery energy storage system (BESS) facility located in Brighton, ...

As outlined in the recent presentation for the local community, Flatiron is proposing to construct a 168MW BESS, known as Salt Cod Storage, at the former coal-fired Montaup ...

The Commonwealth overruled the decisions of its own siting boards and one town's moratoria on all solar and storage projects, paving ...

Energy Vault Holdings has started construction on the SOSA Energy Center, a 150 MW / 300 MWh battery energy storage system located in Madison County, Texas. The project ...
