Does Scatec have a solar power plant in Cameroon?

10 June 2024,Cameroon/Norway: Release by Scatec has entered into two new lease agreements with the national electricity company ENEO in Cameroon,expanding its existing solar and battery storage power plants in the country to 64.4 MWof solar and 38.2 GWh of batteries.

How much energy will release supply in Cameroon?

When the extensions of the projects are completed,Release's projects in totality will supply energy to about 200,000 householdsin Cameroon,according to ENEO estimates,generating an annual production of about 141.5 GWh of electricity.

Why is Eneo Cameroon doubling its solar power plant capacity?

In combination with the storage capacity the installation will ensure stable supply of electricity also during peak hours. "ENEEO Cameroon has renewed its trust in its partner Release by Scatec to double the capacity of the solar power plants in Guider and Maroua.

How can Eneo improve energy supply in Cameroon?

"In addition to improving electricity supply in Cameroon and significantly reducing the cost and CO2 emissions from alternative generation based on diesel supply,these pioneering leasing contractswith ENEO are serving as a model for access to affordable clean energy for other countries and large energy consumers in the region.

The Maroua and Guider solar power plants are based on the innovative Release solution of movable panels and batteries, which are deployed under a simple and flexible ...

Release by Scatec has begun construction of the second phase of its solar and battery energy storage system (BESS) projects in northern Cameroon.
