What is a portable power station?

Portable power stations are large batteries in protective boxes, with AC outlets and other charging ports built in.

Which portable power station should I buy?

If you want a portable power station that's lighter than our upgrade pick, often costs less, and adds a small light, and you don't mind that it has less power, a single handle, and fewer outlets and charging ports: Get the Jackery Explorer 880. It weighs 21.8 pounds, and has an ergonomic handle on top and a small light built into the side.

Why do you need a portable power station?

Why Trust Us? Portable power stations are handy for backup power during outages, off-grid electricity for an RV, or simply charging your laptop and phone while working remotely. They're effectively large bundles of rechargeable lithium-ion batteries, which provide a quiet, exhaust-free alternative to noisy gas-powered portable generators.

What is the best portable power station for home backup?

Key Details: For those who need reliable power without the bulk, the Anker SOLIX C1000 delivers a surprising punch in a small package. It's easily one of the best lightweight portable power stations for home backup and is especially suited for apartments, travel trailers, or short-term outages.
