Why are IP55 enclosures more expensive than IP65 enclosures?

Higher protection levels often mean higher prices. IP55 enclosures cost less because they offer basic protection. IP65 enclosures cost more due to better dust and water resistance. IP66 enclosures have the highest price because they provide the strongest protection. IP55: Budget-friendly for simple outdoor setups.

Why should you choose an outdoor electrical enclosure with an IP55 rating?

When you choose an outdoor electrical enclosure with an ip55 rating, you get a solid balance between protection against dust and water. The ip55 rating means your equipment receives almost complete protection from dirt, dust, oil, and other non-corrosive materials. You also gain complete protection from contact with the enclosed equipment.

Do you carry IP55 enclosures?

We carry IP55 enclosures that demonstrate almost complete protection from particles and a good level of protection against water. All of our enclosures rigidly adhere to the guidelines, so you can count on outstanding and cost-effective enclosures. Refer to the chart below for the IP55 standard protection specifications and ratings:

What is an IP55 rating in outdoor cabinets?

The IP rating on enclosures is an international protection standard that indicates how well the cabinet is protected against two factors: the ingress of dust or solid particles, and the ingress of water.

Find IP55 outdoor enclosure price with durable waterproof protection. Shop premium electrical boxes for telecom, UPS, and network applications at factory prices.
