Who is required to commission a battery energy storage system?

Where commissioning is required by the Uniform Code, Battery energy storage system commissioning shall be conducted by a New York State (NYS) Licensed Professional Engineer after the installation is complete but prior to final inspection and approval.

When should a battery energy storage system be inspected?

Once all permits to construct the battery energy storage system installation have been issued and the system has been installed, it must be inspected before final approval is granted for the battery energy storage system.

What if I have any questions about the battery energy storage system permit?

If you have any questions about the Battery Energy Storage System Model Permit, please email questions to [cleanenergyhelp@nyscrda.ny.gov](mailto:cleanenergyhelp@nyscrda.ny.gov) request free technical assistance at [nyscrda.ny.gov/Energy-Storage-Guidebook](http://nyscrda.ny.gov/Energy-Storage-Guidebook). The NYSCRDA team looks forward to partnering with communities across the State.

What if I Have Questions about the battery energy storage system electrical checklist?

If you have any questions about the Battery Energy Storage System Electrical Checklist, please email questions to [cleanenergyhelp@nyscrda.ny.gov](mailto:cleanenergyhelp@nyscrda.ny.gov) request free technical assistance at [nyscrda.ny.gov/Energy-Storage-Guidebook](http://nyscrda.ny.gov/Energy-Storage-Guidebook). The NYSCRDA team looks forward to partnering with communities across the State.

Acceptance Testing is the process of performing pass/fail tests for mechanical systems and equipment for newly constructed buildings, major renovations and all newly installed ...

DNV can develop, review, witness, and conduct fatal flaw analysis on commissioning and acceptance testing for your energy storage systems. ...
