Who makes the best rocker arms?

JEGS has a large offering of rocker arms available from the best manufacturers in the industry including COMP Cams, Crower, Scorpion Racing Products, Harland Sharp, JEGS and many others. Each rocker arm is constructed from high quality components and assembly to provide long service life and the performance your engine deserves.

What is a full roller rocker arm?

They are very affordable, fit under stock valve covers, and provide a slight boost in horsepower. Full roller rocker arms are made from either aluminum or a stronger material than cast iron. In addition to roller tips, they have a roller fulcrum bearing where the rocker arm is attached to the mounting stud.

What are roller tip rocker arms?

Roller tip rocker arms are very similar to stamped steel rocker arms but with a roller bearing tip, reducing friction where the rocker arm contacts the valve stem tip. They are very affordable, fit under stock valve covers, and provide a slight boost in horsepower.

What are the different types of rocker arms?

There are three common options of rocker arms: stamped steel, roller tip, and full roller rockers. Stamped steel rocker arms are often found on older engines and do not contain any roller bearings. They have the lowest performance, but the longest life.
