Where can I find information about energy storage incentives?

Incentive details will be available on the Residential Energy Storage Incentive Dashboard and Retail Energy Storage Incentive Dashboard. The Residential Energy Storage Incentives are available for contractors' installing storage on a new or existing home in New York State. Incentives are available for up to 25 kWh of storage capacity.

How much does a battery cost on EnergySage?

The median battery cost on EnergySage is \$1,037/kWh of stored energy. Incentives can dramatically lower the price of batteries, but the 30% federal tax credit ends after Dec. 31, 2025. You can go off-grid with batteries, but it requires a lot of capacity and money, so most homeowners don't go this route.

What are the benefits of energy storage?

**Energy Independence:** These solutions allow homeowners to store energy from diverse sources (e.g. grid, solar, wind, or geothermal), reducing reliance on utilities. **Cost Savings:** By storing energy during off-peak times and using it during peak pricing, homeowners can lower electricity bills, especially with rising prices.
