How many AA batteries does a mb-d16 AA battery holder use?

Using the MS-D16 AA Battery Holder adds power from six AAsize batteries. The ubiquitous nature of AA batteries and vast range of charging options such as solar chargers makes this capability most valued when shooting in the wild. The MB-D16 has a set of controls oriented for vertical shooting.

What is mb-d16 multi power battery pack for D750?

Nikon MB-D16 multi power battery pack for D750 ensures extended shooting sessions with reliable, portable energy.

What is the Nikon mb-d16 multi battery power pack?

See 'Notes' next to grade for included items. The Nikon MB-D16 Multi Battery Power Pack is Vertical Gripdesigned specifically for the Nikon D750 DSLR to enhance it's capabilities. The MB-D16 features an extra set of the main camera controls that allows shooting vertical images from a more stable stance and it counterbalances larger lenses.

What controls does the mb-d16 have?

The MB-D16 has a set of controls oriented for vertical shooting. The grip features it's own: shutter release button (with button on/off switch), 'AE/AF' lock button, front control dial, rear control dial, and multi-select stick.

When a battery holder is removed from the MB-D16, remove the batteries or place the holder or cover in the holder case to prevent electrical shorts caused by contact with other metal objects.
