Is Saudi Arabia a leader in battery energy storage?

Riyadh, February 14, 2025, SPA -- The Kingdom of Saudi Arabia has achieved a leading position among the top ten global markets in the field of battery energy storage, coinciding with the launch of the Bisha Project, which has a capacity of 2000 MWh and is one of the largest energy storage projects in the Middle East and Africa.

Will Saudi Arabia deploy 48gwh of battery energy storage systems by 2030?

Saudi Arabia's Energy Minister, Prince Abdulaziz bin Salman, stated at an event that Saudi Arabia plans to deploy 48GWh of battery energy storage systems by 2030.

Will Saudi Arabia develop a storage capacity of 48 gigawatt-hours?

Under the National Renewable Energy Program, which is overseen by the Ministry of Energy, Saudi Arabia aims to develop a total storage capacity of 48 gigawatt-hours by 2030. To date, projects totaling 26 gigawatt-hours have been tendered and are currently in various phases of development.

Will Saudi Arabia have energy storage projects in 2025?

According to Saudi Arabia's plans, the installed capacity of energy storage will show a rapid growth trend. In the short term, Saudi Arabia plans to have 8GWh of energy storage projects in operation by 2025, and this figure will increase to 22GWh by 2026.
