What is an integrated battery cabinet-s?

The IBC-S is housed in a single free-standing cabinet with safety shields behind the doors for hazardous voltage protection. Up to four IBC-Ss per UPS may be used to meet application runtime needs. The cabinets match the UPS cabinet in style and color. Figure 1 shows the Integrated Battery Cabinet-Small.

Where do I install a line-up and match Battery Cabinet?

Line-up-and-match battery cabinets are installed adjacent to the UPS. The recommended installation location is on the right side of the UPS cabinet as viewed from the front of the cabinet. See Figure 3 for line-up-and-match configuration views. Figure 3. Eaton 93PM 100 kW UPS and Two 93PM Integrated Battery Cabinets

Where should a battery cabinet be installed?

If the battery cabinet is installed adjacent to the UPS, the recommended installation location for the battery cabinet is on the right side of the UPS cabinet. This location will allow for future expansion using an external module. Cabinets can be permanently bolted to the floor or left standing on leveling feet.

What is an integrated battery cabinet-small (IBC-s)?

The Integrated Battery Cabinet-Small (IBC-S) is available in one model to meet the needs of the Eaton 93PM UPS product line. The following sections detail the battery specifications, battery runtimes, and the environmental and safety specifications for the UPS. Specifications are subject to change. IBC output protected by 300A circuit breaker.
