How much does a Huawei AITO Erev cost?

Richard Yu, head of Huawei's automotive business, rolled out the model, which is available in both extended-range electric vehicle (EREV) versions and battery electric vehicle (BEV) versions, at a launch event today. The Aito M9 EREV is available in Max and Ultra versions, with starting prices of RMB 469,800 (\$65,750) and RMB 529,800, respectively.

What is Huawei ads & how does it work?

Huawei's ADS 2.0 (Autonomous Driving System) is a cutting-edge autonomous driving technology that powers AITO vehicles. The system is powered by Huawei's Harmony OS 4, which integrates in-car infotainment and AI capabilities. ADS 2.0 uses Huawei's powerful computing platform to identify pedestrians, vehicles, and obstacles accurately.

How will China's upcoming tariff policy affect the electric vehicle market?

In particular, the application of lithium iron phosphate batteries will account for up to 90% of the local battery energy storage market in 2024, far exceeding the penetration rate of less than 10% in the local US electric vehicle market. However, the upcoming tariff policy will undoubtedly severely weaken the competitiveness of Chinese products.

Why should you buy a Huawei maglink?

Another benefit of HUAWEI MagLink is its magnetic attachment mechanism, allowing users to easily attach their tablets to the back of the front seats. This provides passengers, especially in the rear seats, a convenient way to continue watching movies, playing games, or browsing the internet during the drive.
