Will SICRAL 3 meet Italian defence's communications and interoperability requirements?

The SICRAL 3 system will meet Italian defence's communications and interoperability requirements. Credit: #169; Thales. Thales Alenia Space and Telespazio have won an award from the Italian Ministry of Defence (MoD) for the SICRAL 3 satellite communications (SATCOM) system.

What does Telespazio do for Sicral 2?

For SICRAL 2, Telespazio is also responsible for the interconnection system between the Italian and French mission centres. Telespazio has participated in the investments for the construction of SICRAL 1B and SICRAL 2, thus consolidating its role as military telecommunications satellite operator (MILSATCOM).

What did Telespazio do for SICRAL?

For all the SICRAL missions, Telespazio managed the phases of design, construction, integration and testing of the ground segment at the Defence Control Centre (CIGC) of Vigna di Valle (Rome) and in the Fucino Space Centre, that plays the role of back-up centre.

How many phases are there in the SICRAL program?

The program is divided into three phases. The first began in 2001 with the launch of the SICRAL 1, a satellite that was in-activated in May 2021. For this it was removed from the geostationary orbit where it was moved about 400 kilometers to avoid interference with other satellites.

Thales Alenia will develop a telecommunications system, as well as undertake the design and integration of the system and space segment, which comprises geostationary ...

SICRAL 3, being delivered by Thales Alenia Space and Telespazio, aims to ensure continuity with the SHF- and UHF-band services provided by the current satellites.

Rome, March 8, 2024 - Thales Alenia Space, a joint venture between Thales (67%) and Leonardo (33%), has signed a contract with the Italian space ...

More specifically, Thales Alenia Space will be responsible for the entire telecommunications system, the space segment with the design and integration of the system ...

Under the follow-on contract, the companies will continue working with the MoD to develop the Italian System for Secure ...

Thales Alenia Space will be responsible for the entire SICRAL 3 telecommunications system, the space segment (including system design and integration), ...

SICRAL 3, being delivered by Thales Alenia Space and Telespazio, aims to ensure continuity with the SHF- and UHF-band ...

In 2021, Telespazio and Thales Alenia Space have signed a contract with the Italian Ministry of Defense for the development of the SICRAL 3 secure ...

In 2021, Telespazio and Thales Alenia Space have signed a contract with the Italian Ministry of Defense for the development of the SICRAL 3 secure satellite communications system, ...

In 2021, Telespazio and Thales Alenia Space signed a contract with the Italian Ministry of Defense for the development of the SICRAL 3 secure ...

Rome, March 8, 2024 - Thales Alenia Space, a joint venture between Thales (67%) and Leonardo (33%), has signed a contract with the Italian space agency (ASI) to develop the ...

Thales Alenia will develop a telecommunications system, ...

On June 16, 2021, after a long and complex negotiation process, two major aerospace players, Thales Alenia Space and Telespazio, reached an agreement on a contract worth more than ...

Under the follow-on contract, the companies will continue working with the MoD to develop the Italian System for Secure Communications and Alerts (SICRAL) 3 satcom system ...

In 2021, Telespazio and Thales Alenia Space signed a contract with the Italian Ministry of Defense for the development of the SICRAL 3 secure satellite communications system, including its...
