-----  
What is an IP55 enclosure?

IP55 enclosures offer a balanced level of protection for outdoor telecom, electrical, and industrial equipment, providing reliable performance across most climate zones. When properly selected and equipped, they ensure long-term operational stability even in demanding conditions.

What is an IP55 rating in outdoor cabinets?

The IP rating on enclosures is an international protection standard that indicates how well the cabinet is protected against two factors: the ingress of dust or solid particles, and the ingress of water.

Are IP55 enclosures suitable for street use?

Yes, IP55 enclosures are appropriate for street use. They are designed to handle rain, splashes, wind-driven moisture, and general outdoor exposure within their declared operating limits.

What does the second digit mean in an IP55 enclosure?

The second digit indicates the extent of protection against water. We carry IP55 enclosures that demonstrate almost complete protection from particles and a good level of protection against water. All of our enclosures rigidly adhere to the guidelines, so you can count on outstanding and cost-effective enclosures.
