-----

Latvia inaugurates the 94 MW Varne solar farm, the largest in the Baltics. Learn how this massive project from Ignitis Renewables ...

In November 2024, Utilitas Wind Ltd inaugurated Latvia's first storage battery system with a capacity of 10 MW and 20 MWh in Targale, next to the existing wind park.

The largest energy storage battery system will provide energy storage to transfer the generated electricity to users when there is a shortage in the electricity system.

The first BESS projects are being implemented in Latvia and at Latvenergo production sites - starting with the smaller-scale BESS at Latvenergo AS CHPP-1 and ...

In parallel, we are also developing greenfield projects in selected markets across Central and Eastern Europe. In addition to delivering clean electricity, these projects will also provide a ...

Municipalities take charge of the planning and permitting processes for renewable energy and storage initiatives along with ...

Utilitas, an Estonian renewable energy producer, has launched Latvia's first utility-scale battery energy storage system (BESS) with a capacity of 10 MW/20 MWh in Ventspils. ...

Latvia's transmission system operator AS "Augstsprieguma tīkls" (AST) has received a critical shipment from Italy, delivered by Rolls-Royce Solutions GmbH. The delivery ...

Estonia's state-owned energy company, Eesti Energia, has officially launched the country's largest battery energy storage system at the Auvere industrial complex in Ida-Viru ...

European Energy has secured EUR 37.9 million of long-term project financing for a hybrid solar and battery storage project in Saldus, Latvia. Once operational, it will be among ...

This new energy storage system has a capacity of 20 MWh, enabling the park to store surplus energy generated during periods of high wind and supply it back to the grid when ...

Latvia's transmission system operator Augstsprieguma tīkls (AST) has commissioned two utility-scale battery energy storage systems (BESS) in Rezekne and Tume, ...

In news from Europe's Baltic Sea region, Latvia's first utility-scale battery storage project has been commissioned, while Fotowatio Renewable Ventures (FRV) has entered the ...

Latvia 105MW energy storage project Managed by Utilitas, Latvia's largest wind energy producer, this project combines wind energy generation with advanced storage capabilities, setting a ...

The flagship battery storage project commenced operations on February 1, only days before cutting ties with the Russian power grid.

Latvian Solar Project Portfolio Niam Infrastructure has partnered with Evecon to construct and operate up to 84 MWp of solar power and 26 MW of ...
