Where can wind energy be used in Malaysia?

Wind resource mapped by the Energy Commission and SEDA Malaysia has identified key locations - such as Mersing (Johor) and Kudat (Sabah) where speeds range from 3.5 to 6 m/s at 50-meter hub heights. These areas present viable opportunities for targeted wind energy in the region.

Is solar a sustainable construction project in Malaysia?

In Malaysia, solar systems are rapidly becoming a staple in sustainable construction. As the country works towards meeting its renewable energy goals, several local developers and companies are making strides in adopting solar technology for future projects. Notable Malaysian Projects:

Is Malaysia's first indoor 5G network in a commercial building?

KUALA LUMPUR: EDGEPOINT Towers Sdn Bhd, a subsidiary of ASEAN's leading telecommunications infrastructure provider EdgePoint Infrastructure, has collaborated with Sunway Group to introduce Malaysia's first indoor 5G network in a commercial building.
