## What is a network rack & cabinet?

Network Racks and Cabinets are essential for any network. Cabinets are used for storing routers, patch panels, switches and a wide variety of networking equipment and accessories. Network cabinets support large, modular network switches by providing additional space for cable management and side-to-side airflow solutions.

## What is an enclosed server cabinet?

An enclosed server cabinet has shelves with front and rear doors and side panels, creating a structure that helps isolate sensitive telecom equipment from dust, heat and tampering. Server racks and cabinets help you get the most out of your server room storage by offering a variety of mounting options and sizes to fit network gear accurately.

## What is a network cabinet?

Networking cabinets tend to have a wider footprint with additional interior space along both sides for cable management. Inside of network cabinets allows easy access to cables and equipment and may have removable doors and/or side panels. Cables can be organized with cable management accessories in the front or back of the cabinets.

## Can server racks & cabinets be shipped?

All Server Racks & Cabinets can be shipped to you at home. Can Server Racks & Cabinets be returned? Yes, Server Racks & Cabinets can be returned within our 90-Day return period. What are some of the most reviewed products in Server Racks & Cabinets?
