Who commissioned India's first standalone battery energy storage system?

India's first commercial standalone battery energy storage system (BESS) project with a 20MW/40MWh capacity at the distribution company level and a tariff approved by the electricity regulatory authority has been commissioned by power sector infrastructure investment trust IndiGridin Delhi.

Why should India invest in a Bess storage facility?

With a significant increase in renewable energy generation capacity, it is imperative that storage facilities are developed to help India and the world transition to clean energy. With an annual tariff nearly 55% lower than the previous benchmark, the project sets a new standard for BESS affordability in India.

What is battery energy storage system (BESS)?

Our Battery Energy Storage System (BESS) is a crucial enabler in this transition. It offers a reliable, scalable, and sustainable foundation for the energy ecosystem of tomorrow. Through this launch, we are proud to support India's journey towards net-zero emissions by 2070 and power possibilities for generations to come."

When will BRPL's 20 mw/40 MWh Bess be installed?

"The 20 MW/40 MWh BESS was delivered on a turnkey basis under a long-term battery energy storage capacity agreement (BESPA) with BRPL. Installed and commissioned in just 11 months, ahead of schedule, the system became operational in April 2025.

- Flexible Configurations: Supports peak shaving, backup power, and renewable energy integration. - Easy Maintenance: Modular design with convenient installation options.
