---

Generators added 10.4 GW of new battery storage capacity in 2024, the second-largest generating capacity addition after solar. Even though battery storage capacity is ...

While early adopters continue leading in deployment, activity across the country shows clear demand for utility-scale energy storage as a solution to rising electricity prices and ...

China aims to further develop its new energy storage capacity, which is expected to advance from the initial stage of commercialization to large-scale development by 2025, with ...

The hybrid device achieves a record energy storage efficiency of 2.3% and a total solar utilization efficiency of 14.9%.

Today New York Governor Kathy Hochul announced that the New York State Public Service Commission has approved a new framework for the state to achieve a nation ...

US energy storage set a Q1 record in 2025 with 2 GW added, but looming policy changes could put that growth at serious risk.

The NEA issued a notice in April titled "Promotion of New Energy Storage Integration and Dispatch Utilization," aimed at ...

Governor Kathy Hochul today announced that the New York State Public Service Commission approved a new framework for the State to achieve a nation-leading six gigawatts ...

Government Market News | Mary Scott Nabers Insights | Battery storage projects surge as utilities prepare for next grid era in 2026 | Battery storage projects nationwide are ...

November 1, 2024 This document was prepared with and funded by the U.S.

Therefore, the present study develops a generation-grid-load-storage collaborative planning model aimed at achieving economic optimization by setting different renewable ...

MITEI's three-year Future of Energy Storage study explored the role that energy storage can play in fighting climate change and in the global adoption of clean energy grids.

This review article discusses the recent developments in energy storage techniques such as thermal, mechanical, electrical, biological, and chemical energy storage in ...

On July 31, the National Energy Administration held a press conference to release information on the energy situation and the grid-connected operation of renewable energy in ...

Energy storage materials are integral to the transition towards a sustainable future. They efficiently harness and utilize renewable energy sources. Energy storage systems, ...

The New York Solar Energy Industries Association has recommended nine ways for the administration of New York City Mayor-elect Zohran Mamdani to speed solar and ...
