The US-based Pomega Energy Storage Technologies, specialising in lithium iron phosphate battery production, will install a 62-megawatt (MW)/104-megawatt-hour (MWh) battery energy ...

A city where sudden power outages become as rare as unicorn sightings, and solar panels work overtime even after sunset. That's the promise of the Skopje Energy ...

The Tech Behind the Magic: Lithium-Ion Meets AI At its core, the Skopje Phase II Energy Storage system isn't just about stacking Tesla Megapacks like LEGO bricks. We're ...

Skopje's commercial sector is witnessing a 33% annual growth in energy storage adoption [1], driven by frequent grid instability and ambitious renewable energy targets. But ...

In drafts for a set of key laws, North Macedonia defined energy storage operators and facilities and energy communities or ...

For energy storage systems planned to be connected to a generation capacity, the draft Energy Law requires obtaining of an authorization for construction of a new energy ...

Let's face it: North Macedonia isn't the first country that comes to mind when you think of energy storage batteries. But here's the kicker--this Balkan nation is quietly becoming ...

The focus of this article is on the brand-new rules for development of power plants and energy storage systems due to their game-changing nature for the Macedonian energy industry.

Most importantly for investors, the new legislation introduces changes to the procedure for obtaining an

authorisation for the construction of an energy facility (" Energy Facility ...

This article considers energy laws and regulations in North Macedonia, covering the oil sector, electricity market liberalisation and structure, and more.

The new Energy Law puts emphasis on the promotion of the implementation of energy storage and obliges power plants using variable renewable energy sources to install ...

Danish renewables company European Energy A/S has begun construction of its first large-scale battery energy storage system (BESS) project in Denmark, seeking to install an initial capacity ...

On May 21, 2025, the new Energy Law was published in the Official Gazete of the Republic of North Macedonia, adopted by the North Macedonia Assembly on May 14.

Enter the North Macedonia Energy Storage Container Project - a game-changer in renewable energy integration. With global energy storage expected to grow to \$546 billion by ...

This guide explores cutting-edge storage technologies, local applications, and how solutions like lithium-ion batteries are reshaping the country's energy landscape.

With EUR25M in EU grants allocated through 2026 [5], North Macedonia's storage revolution is charging faster than a Tesla at a supercharger. The real question isn't "if" but ...
