---

A JinkoSolar-led consortium has announced plans to construct a 10 GW solar cell and module factory in Saudi Arabia with PIF and ...

SolarSpace, a China-based PV cell and module manufacturer, announced the first phase of a 5GW high-efficiency solar ...

Qcells is one of the world's leading clean energy companies, recognized for its established reputation as a manufacturer of high-performance, high-quality solar cells and ...

The International Space Station (ISS), for example, relies on solar arrays for power generation. Its eight solar array wings can generate about 240kW of power in direct sunlight, ...

The new plant will manufacture TOPCon solar cells and modules. The project aligns with the Indian government's Approved List of Models and Manufacturers (ALMM) policy, ...

As the core technology provider, JA Solar will leverage its expertise in high-efficiency cells and modules to inject advanced manufacturing experience and management ...

LONGi, a global leader in solar technology, proudly announces the completion of its first overseas delivery of the revolutionary Hi-MO X10 solar modules.

The International Space Station (ISS), for example, relies on solar arrays for power generation. Its eight solar array wings can generate ...

Since fully operation, the annual capacity will reach 500MW solar cells with up to 18.5 percent conversion efficiencies and 450 MW solar modules. The Malaysian plant will be ...

The tested modules were fabricated using Hanwha Qcells" tandem R& D pilot line in Bitterfeld-Wolfen, Germany, by incorporating ...

Terms and conditions \* The designations employed and the presentation of materials herein do not imply the expression of any opinion whatsoever on the part of the International Renewable ...

Chinese photovoltaic giant JA Solar is planning an investment to construct a manufacturing facility in Oman's Sohar Port and Freezone, with an annual production capacity ...

China has connected the world's first 1-GW offshore solar farm to the grid, a plant off Shandong set to generate 1.78 TWh per year.

Late today, JA Solar (002459. SZ) announced that it plans to invest in the construction of an annual output of 6GW of high-efficiency solar cells and 3GW of high-power solar modules in ...

India is well-positioned to become a global supplier of solar cells and especially solar modules given its relatively low labor costs and ...

A flurry of PV module orders has been clinched recently. JA Solar secured a large 410MW contract in South Korea, Jolywood PV won a RMB 537 million project, and 9 ...
