-----  
What is an outdoor telecom enclosure?

The outdoor telecom enclosures, which are also referred to as telecommunications cabinets, are fully enclosed cabinets that help protect electrical cabling and other equipment from potentially damaging environments. Such damage can be caused by dust, rain, ice, and external heat. What do you need to know about outdoor telecom enclosures?

What are outdoor electrical cabinets & enclosures?

Browse our range of outdoor electrical cabinets and enclosures and discover why we're a trusted name in the telecom industry. An outdoor telecom enclosure is a specialized cabinet designed to house and protect telecommunications equipment in outdoor environments.

Why should you choose a KDM outdoor telecom enclosure?

A KDM outdoor telecom enclosure protects your telecommunications equipment outdoors and withstands outdoor elements such as temperature extremes, dust ingress, ice, shock hazards, and UV damage. It also safeguards against moisture, condensation, chemicals, and corrosive gases that can affect sensitive components within.

Should outdoor Telecom enclosures be protected?

Outdoor telecom enclosures need to be protected against outside hazards, such as dust, rain, snow, UV radiation, shock, impact, and even vandalism. Additionally, they should have a design that prevents inside hazards from tampering with your electrical components.

Explore durable outdoor cabinets and enclosures engineered for protection, performance, and reliability in demanding environments.

The outdoor telecom enclosure market is poised for robust growth over the forecast period, driven by a
