What types of batteries can be transported by air?

You will encounter two main types when transporting lithium batteries by air: lithium ion batteries and lithium metal batteries. Lithium ion batteries, often used in consumer electronics like laptops and smartphones, are rechargeable and have a typical energy density of 160-270Wh/kg for NMC Lithium battery and 180-230Wh/kg for LCO Lithium battery.

Can a battery be transported by air?

Waste batteries and batteries being shipped for recycling or disposal are forbidden for transport by air unless approved by the relevant Competent Authorities. Cells and batteries must be protected so as to prevent short circuits.

Can I ship a lithium battery by air?

ONLY TRAINED HAZMAT EMPLOYEES MAY SHIP LITHIUM BATTERIES USING THIS GUIDE. Some batteries are regulated when shipped or offered for transportation. If the battery is restricted, then all applicable hazardous materials regulations must be met. This guide provides information to assist you in how to ship the battery by air.

How much charge can a lithium ion battery be shipped by air?

For lithium-ion batteries shipped by air (UN 3480), IATA requires that you ship them at no more than 30% of their rated capacity unless you have special approval. This rule reduces the risk of thermal runaway during transport. The following table summarizes the main numerical thresholds for state of charge and quantity limits across major carriers:

Learn the essential regulations for shipping lithium-ion batteries (UN3480 & UN3481) to ensure safety and compliance in your logistics ...

Power requirements for energy storage batteries shipped by air

Source: <https://w-wa.info.pl/Wed-11-Dec-2019-20201.html>

Website: <https://w-wa.info.pl>

Lithium-metal batteries have tighter shipping requirements than lithium ion batteries. Most Li-metal is non-rechargeable, and it is used in watches, medical instruments, pacemakers, sensors, ...

Lithium-ion batteries (also abbreviated as Li-ion batteries) are secondary (rechargeable) battery where the lithium is only present in an ionic form in the electrolyte. Also ...

Power requirements for energy storage batteries shipped by air in Tunisia From January 1, 2025, until December 31, 2025, lithium-ion and lithium metal batteries must be shipped with a charge ...

FAQ 3: What are the labeling requirements for shipping lithium batteries by air? Packages containing lithium batteries must be labeled with a lithium battery handling label, ...

These instructions have been specifically prepared for the shipment of small lithium ion batteries shipped by themselves (Watt-hour rating ≤ 100 Wh / NOT contained in or packed ...

Shipping lithium batteries? Learn how to pack and ship them safely and how different rules apply depending on the mode of transport.

Safely ship lithium batteries with this guide. Discover packaging instructions, shipping labels, and restrictions to ensure ...

A key takeaway for buyers is that sodium-ion batteries are now subject to air transport regulations, including specific labeling and packaging requirements. As more ...

Lithium-metal batteries have tighter shipping requirements than lithium ion batteries. Most Li-metal is non-rechargeable, and it is used in watches, ...

Pure lithium-ion batteries with single-cell energy ≤ 100 Wh can be shipped by air (cargo aircraft), requiring SIRIM certification + English MSDS; No energy restrictions for equipment containing ...

The uses for this work include: Inform DOE-FE of range of technologies and potential R& D. Perform initial steps for scoping the work required to analyze and model the ...

Guide to shipping batteries by air safely and legally, including lithium battery regulations, packaging, and ...

The Carriage of Electric Vehicles, Lithium-Ion Batteries, and Battery Energy Storage Systems by Seas Executive Summary The rapid global adoption of electric vehicles (EVs), ...

Shipping lithium-based batteries by air requires strict compliance with IATA, UN 38.3, and carrier rules for

Power requirements for energy storage batteries shipped by air
