-----

Italy ranks among Europe's top battery storage markets, driven by its MACSE auctions, capacity market, and early merchant efforts. Competition is growing amid rising ...

The energy minister of Italy has signed a decree paving the way for an energy storage capacity auction to kick off in the first half of 2025.

Cubico Sustainable Investments has announced plans to develop 1GW-plus of battery energy storage system (BESS) projects in Italy.

This blog is the latest addition to our new series, "Introduction to BESS (Battery Energy Storage Systems) Markets". In this blog, we ...

Transmission system operator (TSO) Terna estimates Italy will need 9GW/71GWh of new energy storage to integrate its growing renewables pipeline, an average duration of just under 8 hours.

Additional financial benefits include protection against rising energy prices, which have increased by an average of 4-6% annually ...

BESS, or battery energy storage systems, are an essential element of the energy transition: the Enel Group is playing an important role in the growth of the sector, in Italy and in the other ...

Therefore, battery energy storage systems (BESS) are needed in Italy. The Italian market for BESS is growing rapidly and currently amounts to 2.3 GW but it almost exclusively ...

Italy's Regulatory Authority for Energy, Networks and Environment (ARERA) has approved a series of modifications impacting ...

Let's cut to the chase - battery storage costs in Italy currently range between EUR400-EUR650/kWh for commercial systems. But wait, that's like quoting pizza prices without specifying toppings!

She went on to mention that Aurora predicts a remarkable rise in volatility in Italy's market prices in the upcoming years, thanks to the exponential growth of renewable energy ...

Clean Horizon has released its latest Energy Storage Price Forecast for Italy, providing valuable insights into one of Europe's most dynamic emerging markets for battery ...

Here's the skinny: Residential battery systems in Italy currently range from EUR6,000 to EUR15,000 depending on capacity (4-12 kWh). For grid-scale projects?

Italy's Regulatory Authority for Energy, Networks and Environment (ARERA) has approved a series of modifications impacting the maximum price that can be offered in the ...

Policy changes in Italy are expected to have a significant impact on the European energy storage market, potentially leading to ...

The Italian government is creating an attractive environment for BESS investments In part 2 of this series, we explained how the UK became the leading European country in ...
