How much does a 20 kW solar system cost in India?

In India, the average 20kW off-grid solar system price is Rs. 13,40,000 INR approximately. You have now understood that the 20 kW solar system price is based on various factors such as panels, batteries, inverters, charge controllers, wires, and additional costs.

What is a 20kW Solar System?

Achieve energy independence with our 20kW solar systems. Generating approximately 2,000 to 3,000 kWh of AC power a month, 20kW solar systems are ideal for large households with several EVs and huge energy demands. Choose from a selection of grid-tie and off-grid 20kW solar systems, or get in touch with our experts for a custom system!

Where can I buy a 20 kW solar system?

Featuring daily updates with the lowest prices on solar panels, SunWatts has a big selection of affordable 20 kW PV systems for sale. These 20 kW size grid-connected solar kits include solar panels, DC-to-AC inverter, rack mounting system, hardware, cabling, permit plans and instructions.

Do I need battery storage for a 20kW Solar System?

Whether you need battery storage for a 20kW solar system depends on your goals. If you have grid access and just want to reduce your energy bill, battery storage is optional but recommended. Incorporating battery storage into your solar system is a reliable and effective way to store surplus solar energy for later use.

Note: The price of this unit includes the cost of 10 hours of assembly time. If you want to assemble the unit yourself, we'll subtract \$800 from the price and provide you with support.

Shop our 20kWh Enphase Ensemble battery backup package to add an energy storage solution to your solar power system.
