What is an IP54 server cabinet?

An IP54 server cabinet from Lehmann IT offers excellent protection for your IT equipment against all external influences. In our range, you will find a wide selection of different models - from a simple wall-mounted enclosure to complex industrial cabinets. What are the benefits of an IP54 server cabinet?

How much protection does an IP54 server cabinet need?

For an IP54 server cabinet, a degree of protection of 4 provides good protection against splashing water. Since server cabinets are not submerged, this degree of protection is usually perfectly adequate. Splash water protection is particularly useful for industrial use. An IP54 server cabinet can be a perfectly sensible purchase for many sectors.

Are Orion IP cabinets IP54 compliant?

The Orion IP cabinets are fully welded and sealed against dust and water ingress and use IP54 compliant dust filters. This Orion IP54 server rack enclosure range offers a high level of quality and design as well as being technically equipped to meet all standard data installation requirements.

What are Orion IP54 server rack enclosures?

This Orion IP54 server rack enclosure range offers a high level of quality and design as well as being technically equipped to meet all standard data installation requirements. *These racks have been designed and manufactured to meet IP54 standards but have not yet been externally or independently verified.
