-----

Slovenian energy solution provider NGEN has launched the first Tesla Powerpack storage system in the region, located in Jesenice, ...

Slovenia's state-owned utility HSE is driving the country's energy transition with the deployment of 800MW of energy storage by 2035, including 590MW of pumped hydro energy ...

Its industry-high energy density packs 5MWh into a standard 20-foot container, while its precision liquid cooling system, which reduces energy consumption by 30% and ...

Jinko ESS, a global leading energy storage company and a subsidiary of Jinko Solar Co., Ltd. has further expanded its European presence with the signing of a 15MWh utility ...

Ever wondered how a country smaller than New Jersey is becoming Europe's hidden powerhouse in energy innovation? Let's talk about Slovenia power storage--a topic ...

Meta Description: Explore leading Slovenia battery energy storage system manufacturers driving sustainable energy innovation. Learn about market trends, key players like EK SOLAR, and ...

In an interview earlier this year with Energy-Storage.news Premium, Helena Li, executive president at Trina Solar, said that using an in-house developed and manufactured LFP cell ...

European Commission has approved a EUR150 million Slovenian scheme to support the rollout of renewable energy and heat as well as energy storage, in line with the Green Deal Industrial Plan.

GSL ENERGY's 480kWh BESS project in Slovenia showcases how renewable energy solutions can deliver tangible value to businesses. By prioritizing efficiency, reliability, ...

Slovenia targets 400 MW in BESS, 100 MW in electrolyzers and more pumped storage in the updated Integrated National Energy and Climate Plan.

Slovenia's HSE signs a EUR100M deal for 80 MW of new solar power plants with integrated battery storage, advancing the nation's ...

Slovenia's manufacturing sector embraces circularity, contributing to environmental protection, economic growth, and long-term ...

Slovenia targets 400 MW in BESS, 100 MW in electrolyzers and more pumped storage in the updated Integrated National Energy and ...

RNTEC Completes First European Grid-Scale Storage Project ! Ljubljana, Slovenia -- RNTEC as provider of energy storage solutions, has announced the successful grid connection of its first ...

The use of solar energy, an important green energy source, is extremely attractive for future energy storage. Recently, photo-assisted energy storage devices have rapidly developed as ...

Slovenia aims to support the implementation of demonstration and pilot projects on energy storage by 2030.
