Discover China's pioneering solar projects, from the highest-altitude stations to the largest solar-wind hub in deserts.

A 31.82-megawatt photovoltaic power station built by a Chinese company broke ground on Friday in Calarasi County, southeast ...

BUCHAREST, Oct. 12 (Xinhua) -- A Chinese company broke ground on a 31.82-megawatt photovoltaic power station in Calarasi County, southeast Romania, on Friday.

A Chinese company broke ground on a 31.82-megawatt photovoltaic power station in Calarasi County, southeast Romania, on Friday.

BUCHAREST, Oct. 12 (Xinhua) -- A 31.82-megawatt photovoltaic power station built by a Chinese company broke ground on Friday in Calarasi County, southeast Romania.

A 31.82-megawatt photovoltaic power station built by China's Pinggao Group International Engineering Co., Ltd. was completed Tuesday in Stefan cel Mare, Calarasi ...

The new solar plant is designed to install with the largest power generation capacity in Romania so far, which is planned to provide clean electricity to approximately ...

BUCHAREST, Aug. 12 (Xinhua) -- A 31.82-megawatt photovoltaic power station built by China's Pinggao Group International Engineering Co., Ltd. was completed Tuesday in ...

China has announced plans to build a giant solar power space station, which will be lifted into orbit piece by piece using the nation's ...

A 31.82-megawatt photovoltaic power station built by a Chinese company broke ground on Friday in Calarasi County, southeast Romania.

BUCHAREST, Oct. 12 (Xinhua) -- A Chinese company broke ground on a 31.82-megawatt photovoltaic power station in Calarasi County, southeast Romania, on Friday.

Romania's largest solar power plant awaiting grid connection one year after completion In partnership with Econergy, the company commissioned the Ratesti PV plant in ...

History Romania was a major player in the solar power industry, installing in the 1970s and 1980s around 800,000 m<sup>2</sup> (8,600,000 ft<sup>2</sup>) of low quality solar collectors that placed the country third ...

The construction of a EUR 1 billion solar power plant with storage is due to begin in the summer in Romania's Arad province.

Of note, China Huadian was interested in building a coal power plant in Romania, until the country decided to phase out the solid fossil fuel. The company also participated in a ...

The European Commission announced that two Chinese-owned renewable energy developers have pulled out from a public tender to build a solar photovoltaic (PV) park ...
