What are 5G outdoor cabinets?

5G outdoor cabinets,also referred to as 5G outdoor cabinets or 5G outdoor enclosures,are boxes designed to house and protect the electrical equipment to support 5G-LTE technology. Made of metals,plastics or a combination of the two material types,5G outdoor equipment enclosures serve the following primary purposes.

What is a 5G enclosure?

Equipment protection: An enclosure's primary purpose is to protect 5G cables and equipment from damage caused by environmental and physical conditions. The cabinet is mechanically robust and sealed, preventing costly damage from weather conditions,impacts and other factors.

What is MicroStation & how does it work?

MicroStation is the only computer-aided design software for infrastructure design,helping architects and engineers like you bring their vision to life,present their designs to their clients, and deliver their projects to the community. MicroStation is Infrastructure Design. It's Simple,really.
