Why should you choose Edina as your battery energy storage EPC contractor?

Why Edina as your Battery Energy Storage EPC Contractor? We are a BESS turnkey EPC contractor and systems integrator of advanced global Tier 1 battery and inverter technologies to provide an industry-leading battery energy storage solution that is scalable and delivers guaranteed performance.

How much does EPC cost?

While EPC typically represents around 20-25% of the total project budget, it actually covers up to 95% of the activities required to commission a battery storage system. For example, in a 2 MW /5 MWh project, a single month of delay may result in a loss of CZK 1.5-2 million.

Who is Ibérica energy & data centers?

Ibérica Energy & Data Centers is distinguished by its commitment to innovation and excellence in the energy and data center sectors. Our expertise and strategic alliances in Europe and Latin America enable us to deliver advanced, customized solutions that exceed our clients' expectations.

What does EPC stand for?

Solar engineering, procurement and construction (EPC) services. Solar photovoltaic systems are an essential part of the Spanish energy mix. As a specialist photovoltaic services company, Ethical Power can deliver the full-wrap EPC (Engineering, Procurement, Construction) of solar photovoltaic projects of all sizes.
