What types of battery cabinets are available?

Tariff Relief. Up to 10% Protection. Battery cabinets from diverse manufacturers APC, Toshiba, CC Power, Eaton, Powerware, Mitsubishi, Narada, and Salicru. We stock new and used battery cabinets in support of our energy storage packages, ups backup systems and rental UPS. Speak to a power expert to match up with your specific requirements.

Why do data centers need a high cycle battery?

The increase of Artificial Intelligence(AI) loads has changed the landscape of data center critical power requirements and high power,high cycle battery solutions are now more important than ever. No other battery is as suited to this critical need as Natron's BluePack (TM).

What is a battery cabinet & how does it work?

Battery cabinets play a vital role in how efficiently your facility manages and distributes backup power. When integrated with a UPS system,the batteries within these cabinets store energy and automatically discharge when a power disruption occurs. This seamless transition ensures continuous operation without interruption or data loss.

Are Natron battery cabinets a good choice for a data center?

Natron's sodium-ion batteries offer superior reliability and industry-leading lifecycle capacity and require minimal maintenance when compared to other data center battery solutions. Our standard battery cabinets do not require any type of active cooling to function properly, eliminating that risk from your operations as well.

This system provides a 120kW sustained power output and a battery capacity of up to 225kWh, easily meeting the demands of most high-load applications like factories, commercial ...

Search hundreds of used and surplus UPS battery cabinets from top brands like APC, Liebert, and Eaton. Ideal
