---

Construction began in December 2024 and features 58 Tesla Megapack 2XL units installed at a Nucor substation within Mohave Electric Cooperative's territory. The Ameresco ...

Orix, a leading financial and real estate company, spearheads a massive energy storage project in Maibara, Japan. Scheduled to be ...

In Q2 2025, Tesla deployed a record 9.6 gigawatt-hours (GWh) of storage products worldwide--a robust performance that underscores ...

Discover how Tesla's Megapacks are revolutionizing energy storage worldwide with projects spanning Japan, Belgium, and more. ...

Tesla's Megapacks are set to back one of Europe's largest energy storage facilities, as the project kicks into the next phase.

Launched in 2019, a Megapack can store up to 3.9 megawatt-hours (MWh) of electricity. Each Megapack is a container of similar size to an intermodal container. They are designed to be ...

In Q2 2025, Tesla deployed a record 9.6 gigawatt-hours (GWh) of storage products worldwide--a robust performance that underscores both the rising demand for grid-scale and ...

Launched in 2019, a Megapack can store up to 3.9 megawatt-hours (MWh) of electricity. Each Megapack is a container of similar size to an intermodal ...

When Tesla unveiled its next-generation energy storage systems--Megapack 3 and the new Megablock--on September 15, 2025, ...

Tesla announced its new integrated 20MWh battery energy storage system (BESS) solution, the Tesla Megablock, on 8 September in ...

Located in the towns of Hawthorne, Yorktown and Ossining, these projects feature Tesla's MegaPack2XL technology, delivering 4.9 ...

Tesla and Intersect Power today announced a contract for 15.3 GWh of Megapacks, Tesla's battery energy storage system, for Intersect Power's solar + storage project portfolio ...

The project has a capacity of 100 MW/200 MWh - making it one of the biggest Tesla energy storage projects in the world.

SEC's latest announcement underscores an increasing reliance on Tesla for large-scale energy storage projects ever since the ...

The Tesla Megapack is set to evolve with new battery technologies and a rising demand for renewable energy. It is expected to ...

AUSTIN, Texas, January 2, 2026 - In the fourth quarter, we produced over 434,000 vehicles, delivered over 418,000 vehicles and deployed 14.2 GWh of energy storage products ...
