Is TPL the most profitable SOE in Tonga?

As Tonga's most profitable SOE, there is good reason to believe that TPL has the commercial capacity, technical capacity and financial incentive to sustain, maintain and further develop OIREP assets beyond the life of the project given the revenue they can generate.

How much subsidy does Tongatapu receive?

From July 2020 to June 2021, users on the main island of Tongatapu paid on average a 6% subsidy to cover the costs of outer islands, with the result being that Vava'u, Ha'apai and 'Eua received 40%, 40% and 26% subsidies respectively.

When will ECOS operate OIREP systems in Tonga?

Currently, it appears that ECOS with MEIDECC support will operate and be responsible for OIREP systems commencing 1 January 2024 through until at least 30 June 2025, when Tonga's new electricity concession contract negotiations will have been concluded.

In Micronesia, Yap island seeks bids on a 79 kW solar plus storage minigrid system. A new hybrid minigrid that will provide clean, reliable and efficient ...

The first utility-scale battery energy storage system (BESS) project in Tonga was officially opened at an event attended by Prime ...

In Micronesia, Yap island seeks bids on a 79 kW solar plus storage minigrid system. A new hybrid minigrid that will provide clean, reliable and efficient energy supply to residents of Tonga was ...
