How deep is a sr48subdpwd8 rack?

Built-in baying brackets allow the combination of two or more rack cabinets in a row. The SR48UBDPWD8 is deeper than a standard rack's 42 inches and wider than the usual 600 millimeters. At 46 inches(1168 millimeters) deep,this rack can accommodate large servers and other equipment of equivalent mass.

How big is a server rack?

At 46 inches (1168 millimeters) deep, this rack can accommodate large servers and other equipment of equivalent mass. The rack's 800-millimeter (31.5-inch) width provides side channels for mounting accessories, more room for routing cables and increased airflow to help keep equipment cool.

What are modular drawer cabinets & shelving?

Modular drawer cabinets and shelving with drawers store and organize small parts for quick retrieval,security,and dust protection.
