Will Kyrgyzstan build new solar power plants in Batken & Talas?

Kyrgyzstan partners with the IFC to build new solar power plants in Batken and Talas, aiming to power over 125,000 homes and advance its renewable energy goals.

Does Kyrgyz Republic have a solar energy project?

The Kyrgyz Republic is making significant strides in solar energy development. A recent memorandum of understanding between the Ministry of Energy, the Ministry of Economy and Commerce, and the International Finance Corporation (IFC) marks a key step forward in the second phase of a major solar power project.

How has the IFC shaped Kyrgyzstan's solar energy sector?

In the project's initial phase, the IFC was instrumental in assessing and structuring a pilot solar energy project of 100 to 150 MW in the Kochkor district of the Naryn region. This groundwork has set the stage for attracting more private sector investment into Kyrgyzstan's solar energy sector. Image: Collected
